"Exploitation strategies for Bioeconomy Research proposals"

7 June 2016/ Brussels, Belgium

Venue

Stanhope Hotel
Rue du Commerce, 9
1000 Brussels, Belgium

Be part of this conference and learn how to make the most of your bioeconomy R&I results. The conference will give you insights on **how to improve the exploitation aspects of a research project** proposal to fully exploit all the opportunities brought by your project's results. Funding opportunities and consortium building will also be addressed.

Why participate?

To have the opportunity to practice setting up a proposal with other researchers in a neutral setting. Improve a fictive proposal idea together with other researchers. This will allow you to practice implementing an exploitation strategy and putting together the consortium for the creation of competitive proposals.

The event will also offer the opportunity to interact and find new contacts with researchers in the area of bioeconomy.

Scope

Presentations of strategies for exploitation plans, consortium building and funding opportunities and exchange with other researchers.

Who will be participating?

KBBE projects' result owners and other invited researchers (in principal an open event, with priority to result owners coached by ProBio).

For more information and updates about the conference, please check the [ProBio website](#) or contact Emma Holtz at emma.holtz@sp.se or +46 (0)10 516 66 69
